CATERING EQUIPMENT LIMITED

Point of Sale

We are committed to leading the industry in minimising the impact of our business activities on the environment.

As a testament to our commitment this catalogue is printed on paper that is FSC certified and manufactured to the highest environmental standard using wood pulp that is sourced from well-managed forests.

Key actions that we have taken to achieve this are:

- Use of electronic communications, reducing the consumption of paper
- Use of teleconferencing to avoid travelling to meetings to save time Recycling paper, print cartridges and electronic equipment
- Lift sharing to meetings and events where appropriate to reduce fuel consumption
- Regularly service and maintain vehicles to ensure fuel efficiencies
- An environmentally positive transport policy, where we use outside transport companies who consolidate loads to reduce unnecessary mileage that an in-house delivery service would produce
- We meet or exceed all environmental legislation that relates to the company
